

Area 1 Flu Vaccine Database

Area 1 Flu Vaccine Database is now open for business!

Club Team Managers - This will be the last paper copy of your regular team riders details and their horses' full passport details you will need to produce forever!!! If that doesn't sell this new database idea - Nothing will !!

Main Objectives of the Flu Vaccine Database

- To help simplify the process for future team managers and Area qualifier hosts who at the moment have to produce or check multiple paper copies of the same documents in the same competition year.
- Help save a few trees!
- The Database will only be a reference tool for team managers and organisers of Area qualifier competitions and will have no proactive responsibility to remind people when their horses' boosters are due.

How the Flu Vaccine Database is going to work?

- Once a horse has been successfully registered on the database and the initial vaccination program or most recent restart dates have been verified by Database admins - Linda Penman and Lynn Taylor - that will be it. No more copies of that horses flu vacc or passport will be required ever again!
- At all future qualifiers only the most recent annual boosters will need to be checked from the original passport or these too can be emailed in to the database throughout the year.
- Original Passports will always still need to be produced at Qualifier competitions as per BRC rules.
- Clubs will receive their own Club Database list of their riders / horses before each Summer and Winter qualifiers so you know who is already on the Database and which riders you still have to produce paperwork for.

How do you register your club riders / horses documents on the Flu Vaccine Database?

Flu Vacc checking is exactly the same process as before but we will accept copies at any time starting from today!. Club team managers can now start sending all their possible 2015 team riders / hopefuls flu vacc / passport copies. Just send them in to the database as you get collect them in. No need to have a full teams worth.

by email to lpnman@toucansurf.com subject – Area1 Flu Vaccine Database.

or paper copies by post to Linda Penman, West Broadlaw Farm, by Dechmont, West Lothian, EH52 6NB.
Enquiries contact Linda 07803 927 975

What format does the information need to be in ?

Happy to receive paper photocopies by post or scans or photographs of documents by email only. Facebook or messenger messages, texts with attachments or any other imaginative variation will not be accepted.

For successful registration on the Area1 Flu Vaccine Database we will require the following information - to be **clearly visible** on all copies of the original docs sent in.

Name of Area1 Riding Club

Team manager name and contact details - email / mob no

Riders name / contact details - email / mob

Riders BRC membership number

Horse name on passport

Passport number / unique ID number

Horse ID diagram

Flu Vacc Dates for Initial Flu Vacc Program (1st primary, 2nd primary and 3rd injection(1st booster)

Dates for All subsequent annual boosters

These vaccine pages must include full entry details from margin to margin across the passport page.

Each individual vaccination to have been dated, signed by attending vet and stamped with their practise stamp.

Any alterations to be initialled by vet.

Confirmation of a successful registration will be sent out by email

once ALL documents and details above are received by Database Admins and checked that they meet Horse Racing Authority Rules – see BRC Rule Book G7.1 .

Good Luck for the 2015 season!
